

**Presenting**

**2021**

**Etching & Microstructure**

**Webinar Series**

*Please join us in our new Webinar series that will cover the topics listed below:*

## **Fundamentals of Etching**

**February 24, 2021 | 12pm cst**

## **Carbon and Low Alloy Steels**

**March 31, 2021 | 12pm cst**

*The dates for the remaining Webinars are TBD:*

Etching and Microstructure Series: Stainless and Maraging Steels  
Etching and Microstructure Series: Tool Steels  
Etching and Microstructure Series: Superalloys  
Etching and Microstructure Series: Light Metals  
Etching and Microstructure Series: Copper Alloys  
Etching and Microstructure Series: Titanium Alloys  
Metallographic Analysis Series: Grain Size Measurement  
Metallographic Analysis Series: Inclusions in Steel

Sign up today @ [www.buehler.com/buehler-webinar-registration.php](http://www.buehler.com/buehler-webinar-registration.php) for free and get a place in the virtual Buehler classroom. You will also receive a certificate of participation right after the Webinar.

***Our Host for the Webinar series will be:***

**George Vander Voort**

Principal of Vander Voort Consulting LLC and consultant to Buehler Ltd.

- 29 years' experience in the steel industry
- Past president of the International Metallographic Society
- Past chairman of ASTM Committee E-4 on Metallography
